KEYWORDS & KEY CONCEPTS

-
-
-
-
-
-
-
-

Focus on the key concepts that generate value and understanding.

ACTIONS / NEXT STEPS

- ☐
- ☐
- ☐
- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Sistema binario

Topic: _____

El sistema binario solo tiene
2 cifras: 0 y 1 ...

para convertir de decimal a binario
se divide el decimal entre 2 y
se anota el resto de la división
que siempre sera 1 o 0 y se
repite sucesivamente hasta que
el cociente llegue a 0

Ej $13_{10} \rightarrow \text{binario}$ $13_{10} = 1101_2$
 $13/2 = 6$ 1
 $6/2 = 3$ 0
 $3/2 = 1$ 1
 $1/2 = 0$ 1

QUESTIONS & REFLECTIONS

What
questions do
I have?

What is
unclear or
confusing?

What ideas
connect?

How can I
apply this?

What assumptions
should I
challenge?

SUMMARY

Write a brief summary of the main points.

KEY TAKEAWAY

Capture the most important insight.

Carlos Pichardo Vique

NOTES

Title: Conversión binario a decimal

Topic: _____

para convertir de binario a decimal se usa la suma de potencias, se escribe el numero binario y se le asigna una posición de derecha a izquierda, empezando desde el 0

Ej 1101_2 a decimal

$$(1 \times 2^0) + (0 \times 2^1) + (1 \times 2^2) + (1 \times 2^3) \\ = 1 + 0 + 4 + 8 \\ = 13$$

QUESTIONS & REFLECTIONS

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

KEY TAKEAWAY

Capture the most important insight.

- ☐
- ☐

Turn knowledge into action.
Small steps, big results.

NOTES

Title: Sistema Octal

Topic: _____

El sistema octal usa 8 dígitos (0, 1, 2, 3, 4, 5, 6, 7) que tienen el mismo valor en el sistema de numeración decimal. Cada posición se representa como una potencia base 8.

tabla de equivalencia

Octal	Dec	Binario	Hexa
0	0	000	0
1	1	001	1
2	2	010	2
3	3	011	3
4	4	100	4
5	5	101	5
6	6	110	6
7	7	111	7

QUESTIONS & REFLECTIONS

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

KEY TAKEAWAY

Capture the most important insight.

Small steps, big results.

NOTES

Title: Conversión Octal

Topic: _____

Octal $\rightarrow$ Dec : Se multiplica cada dígito por 8^n , donde n es la posición del dígito de derecha a izquierda y luego se suman

Ej: 357_8 a Dec
 $(7 \times 8^0) + (5 \times 8^1) + (3 \times 8^2)$
 $7 + 40 + 192 = 239_{10}$

Dec a Octal : Se divide cada dígito entre 8 y los residuos obtenidos leídos en orden inverso forman el octal

$$\begin{array}{r} 239 \div 8 = 29 \quad 7 \\ 29 \div 8 = 3 \quad 5 \\ 3 \div 8 = 0 \quad 3 \end{array} = 357_8$$

QUESTIONS & REFLECTIONS

What questions do I have?

What is unclear or confusing?

What ideas connect?

How can I apply this?

What assumptions should I challenge?

SUMMARY

Write a brief summary of the main points.

KEY TAKEAWAY

Title: Sistema Hexadecimal

Topic: _____

El sistema hexadecimal es un sistema de numeración base 16 (2^4) que usa 16 símbolos, los dígitos de 0 a 9 y letras A a F.

A a F	Dec	Bin
0	0	0000
1	1	0001
2	2	0010
3	3	0011
4	4	0100
5	5	0101
6	6	0110
7	7	0111
8	8	1000
9	9	1001
A	10	1010
B	11	1011
C	12	1100
D	13	1101
E	14	1110
F	15	1111
